

Valentine's Day Paper Chains

For best results, print on Cardstock.

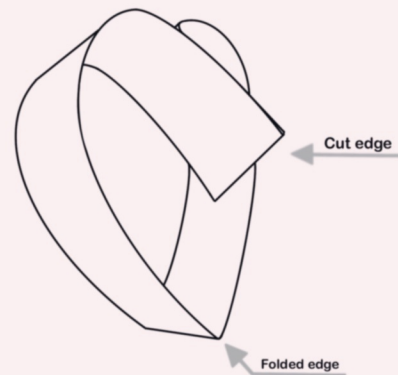

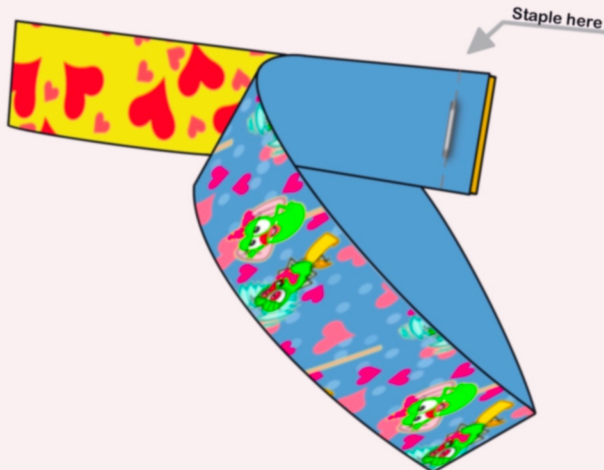

Step 1: Print out page with page patterned strips. If desired, print optional solid color strips on back side of patterned strip page. With the help of an adult, cut each strip out on the patterned side.

Step 2: Fold all the strips in half length-wise.

Step 3:
Part 1- Fold short cut edges inwards with the patterned side facing each other.
Part 2- Lining up the short cut edges, have an adult help you staple 1/4" from the short edge.

Step 4: Repeat part one of step 3 with the next strip. Then align the short cut edges of the second strip with the short folded edge of the first strip, sandwiching the folded edge of first strip in between the short cut edges of the second strip. With the help of an adult, staple the short edges of both strips together 1/4" from the short edge.
