

Valentine's Day Paper Flags

Step 1: Print out the Paper flags. If desired, print the optional solid colors page on the back side of the patterned flag page.

Step 2: With the help of an adult, cut out each paper flag and use a hole punch to make the holes for the string in each flag.

Step 3: using yarn or string, feed it through each hole on the flags. You may have to tape the string in place on the back side of each flag to keep it from moving.

Step 4: Hang up your Valentine's Day paper flags!

For best results, print on Cardstock.
